

# FUTURE OF ACNE

**Clearer skin in a flash. This is the future of acne treatment.**

Lasting results in three 30-minute treatment sessions.<sup>1</sup>

Three quick treatments. No harmful side effects. Serious clearance that lasts.<sup>1</sup> Introducing AviClear™—the first and only FDA-cleared energy device for the **treatment of mild to severe acne**. Ready to put your old acne routine in the past?

**Do not use AviClear if you are pregnant or have skin cancer. For more information, visit [aviclear.com](http://aviclear.com).**

Model. Not actual patient.

# A future without worrying about your acne

It could be three 30-minute treatment sessions away

# 85%

of teens and young adults get acne, but that doesn't mean you have to live with it.<sup>2</sup>

Maybe you're growing **impatient with your current treatment.**

Maybe you're constantly **forgetting to take your medication.**

Maybe you're sick of all of those **daily creams and pills.**

Maybe you're struggling with **side effects.**

Maybe you're simply wanting to **look your best** for a big event like a wedding or prom.

**Or maybe you're just over it all.**

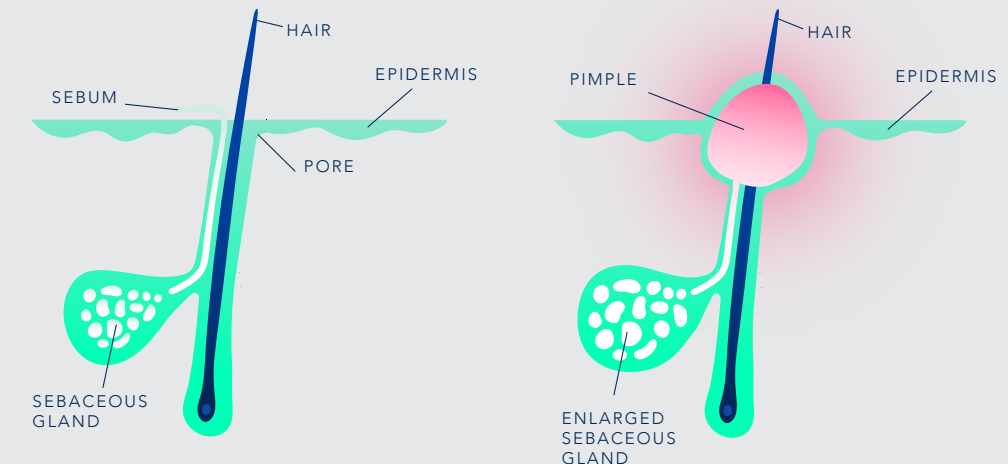

Whatever your reason, AviClear can provide lasting clearance without significant side effects in just three treatment sessions.<sup>1</sup>

# Your future is clear

And with AviClear, it just keeps getting better

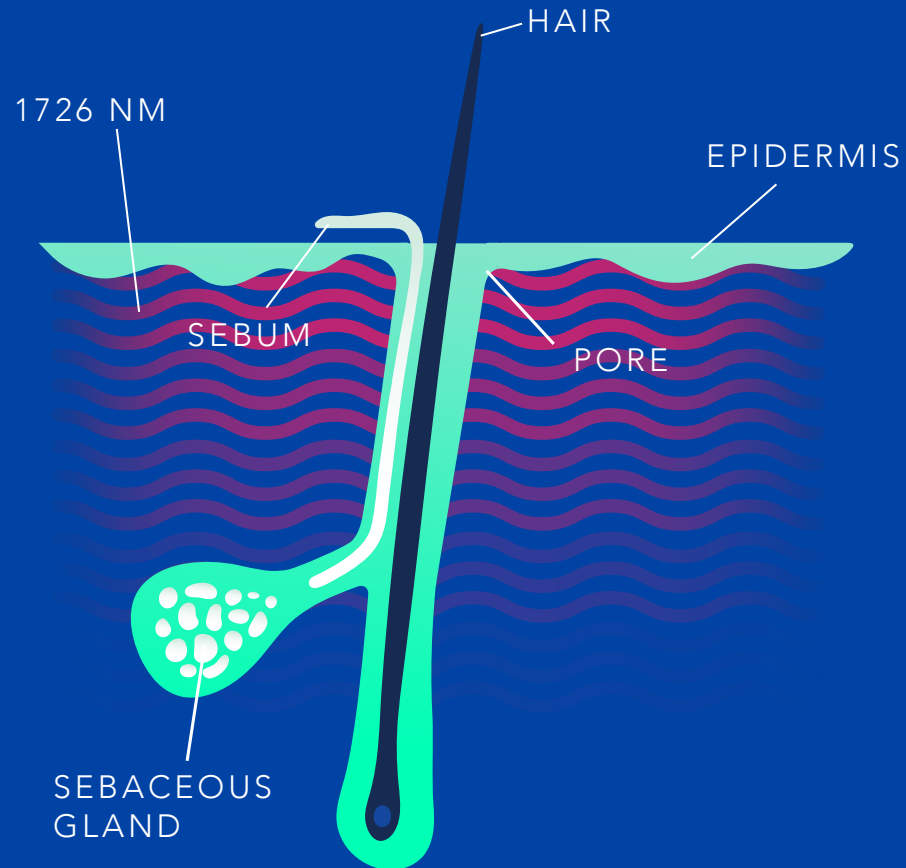

AviClear is the first and only FDA-cleared device for the treatment of mild to severe acne.

To understand how AviClear works, it's important to understand how breakouts happen. **Acne forms when sebum, the oily substance on your skin, combines with dead skin cells and clogs your pores.**<sup>3</sup> Most acne treatments target other things that cause acne, but not the production of sebum.<sup>4</sup> And that makes a big difference in your results. Those treatments won't provide lasting improvement, and acne will return if you stop treatment or don't use it every day.<sup>5,6</sup>

## AviClear is different

It is a laser treatment that specifically targets the source of the oily substance on your skin. After treatment, you will produce less oil and your acne will get better and stay better.

## It's time to see your skin in a whole new light

In clinical studies, 91% of patients responded to treatment and 80% saw **at least half of their acne clear.**<sup>7</sup> And results may continue to improve with time — even several months after your treatment sessions are finished.<sup>1</sup>

BEFORE

3 MONTHS AFTER FINAL TREATMENT SESSION

BEFORE

3 MONTHS AFTER FINAL TREATMENT SESSION

**9 out of 10**

patients were satisfied or very satisfied with their results one month after treatment.<sup>1</sup>

# Reimagining how acne is treated

Because the experience matters

## COMFORTABLE

AviClear is equipped with exclusive AviCool™ sapphire skin cooling and sensory controls that maintain your skin's temperature during treatment for a more comfortable experience.

During treatment, you may notice a slight snapping sensation. In clinical studies, patients tolerated the treatment well, without the need for pain mitigation or the need to stop the treatment session.

## SAFE

Unlike most traditional acne treatments, AviClear is free of harmful side effects, free of chemicals and toxins, and safe for all skin types and tones.

After treatment, mild symptoms such as redness, inflammation, and flareups are normal but fade quickly.

## FAST

From quick lunchtime procedures to running errands, AviClear is designed to conveniently fit into the busiest of schedules. Each treatment session should take about 30 minutes, and with no downtime needed, you can easily get back to your day.

Proper skin care always includes using sunscreen, and this is especially important while you are getting your AviClear treatments.

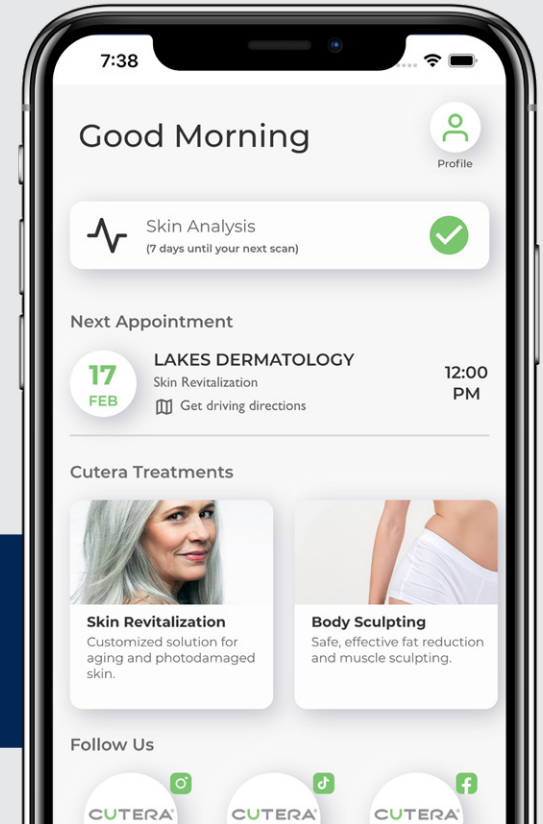

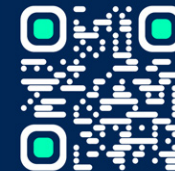

## Ready for a clear future with AviClear?

That's a question your provider will help answer, but the great news is **you don't have to wait to see where your skin health stands.**

A personalized, digital skin analysis with the Cutera App is just seconds away.

- 1 Identify areas of skin concern
- 2 Connect with an AviClear provider
- 3 Manage appointments and treatment progress
- 4 Discover the latest skin health and beauty trends

Just scan the QR code to get started.

See if clear skin is in your future. Ask your provider about AviClear today.
